

This term, we will to learn about money and counting in pounds and pence before moving on to begin our learning about multiplying and dividing.

This term we will be working on 2

DT projects. We will be using our sewing skills to make a bookmark and we'll also be making a toy!

This term, we are going to be learning some new SPaG concepts before reading a book called 'Our Blue Planet,' which is about different animals and habitats. We'll be writing a non chronological report!

This term, we are going to be learning about many different materials and some of their properties. We'll be doing some cool investigations and writing our findings!

We will learn about Humanism this term, which isn't a religion but a way of living. We'll be looking at similarities and differences with how Christians live.

In PSHE this term, we will be learning about how to keep ourselves and each other safe and we will also learn about how we change as we grow.

This term we'll be learning about finding the pulse/beat of the music and how to make up our own rhythms. We'll be using some instruments too.

This term's topic will be geography based and focus on hot and cold climates.

We will learn about hemispheres, the equator, animals that inhabit these climates and how they adapt for survival.

We are going to learn about digital art this term, using a computer programme to help us to create some amazing art. We will try to copy famous artists like Monet and Van Gough!

This term, we'll be using our bodies and minds as we work on our team building skills. We'll be working together to achieve some common goals!

Orange Class

Term 3 Overview
